PROFESSIONAL SUMMARY

Results-driven MERN Stack & Frontend Developer with proven experience architecting and deploying full-stack web applications using MongoDB, Express.js, React.js, and Node.js. Proficient in building RESTful APIs, implementing JWT-based authentication, and designing pixel-perfect responsive UIs with Tailwind CSS. Demonstrated ability to integrate third-party APIs (Gemini AI), optimize backend performance, and deliver production-ready applications. Actively expanding expertise in advanced backend optimization, CI/CD pipelines, and cloud deployment.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), Python, HTML5, CSS3
Frontend: React.js, Tailwind CSS, Responsive Web Design, Component Architecture
Backend: Node.js, Express.js, RESTful API Design, JWT Authentication, CRUD Operations
Database: MongoDB, Mongoose ODM
API Integration: Gemini AI API, External REST APIs, Axios / Fetch
Tools & Platforms: Git, GitHub, VS Code, Netlify, Vercel, npm

PROJECTS

INNOV.AI – AI-Powered Startup Idea Generator	<i>HTML5, CSS3, JavaScript, Tailwind CSS, Gemini AI API</i>
- Integrated Google Gemini API to generate contextual startup ideas in real time, reducing idea-generation time by delivering instant structured responses. - Engineered a fully responsive UI with Tailwind CSS ensuring seamless cross-device experience across mobile, tablet, and desktop viewports. - Implemented dynamic DOM manipulation and async API calls with error handling, improving application reliability and user interactivity.	
JOBVERSE – Full-Stack MERN Job Portal	<i>MongoDB, Express.js, React.js, Node.js, JWT, Tailwind CSS</i>
- Architected a production-ready job portal with role-based access control (RBAC) differentiating Admin and User roles, securing sensitive operations. - Built 15+ RESTful API endpoints for job listings, user profiles, and applications; optimized MongoDB queries reducing average response time by ~30%. - Implemented JWT-based authentication with protected routes, enabling secure session management across the full-stack application. - Developed an admin dashboard with full CRUD capabilities and advanced job-filtering, improving recruiter efficiency in managing 100+ listings.	
MERN Notes Application – Full-Stack Notes Manager	<i>MongoDB, Express.js, React.js, Node.js</i>
- Developed end-to-end notes management application with full CRUD functionality, handling create, read, update, and delete operations through a RESTful API layer. - Designed a clean React.js component architecture with state management, enabling real-time UI updates without page reloads. - Structured MongoDB schemas using Mongoose for efficient data modeling, ensuring fast retrieval and consistent data integrity.	
QR Code Generator – JavaScript Web Tool	<i>JavaScript, HTML5, CSS3, External QR API</i>

- Built a lightweight client-side tool integrating an external QR Code API, enabling users to generate custom QR codes instantly from any text or URL input.
- Designed an intuitive single-page UI with real-time feedback and download functionality, delivering a seamless user experience.

INTERNSHIP EXPERIENCE

MERN Stack Developer Intern — EduSkills

Mar 2026 – May 2026

- Designed and deployed 2 full-stack MERN applications during the internship, following industry best practices for component reusability and API design.
- Built and consumed RESTful APIs performing CRUD operations, reducing data-fetching complexity and improving application responsiveness.
- Created pixel-perfect, responsive UIs using React.js and Tailwind CSS, achieving consistent rendering across all major browsers and screen sizes.
- Collaborated in an Agile environment, participating in code reviews and iterative development cycles to ship features on schedule.

EDUCATION

B.Tech in Computer Science — DVR & Dr. HS MIC College of Technology

2023 – 2027 (Expected)

Intermediate (MPC) — Narayana Junior College

2021 – 2023

SSC — Vivekananda Vidyalayam High School

2020 – 2021

CERTIFICATIONS

- HTML5 – Infosys Springboard
- CSS3 – Infosys Springboard
- JavaScript – Infosys Springboard
